

Brazil → San Francisco Freight Pre-Flight Checklist

Purpose: Single reference for AI assistants (and human operators) to manage the end-to-end process of freighting cacao from Ilhéus, Brazil to San Francisco, USA. Extracted from the email thread “Re: Quote Gary / Exportação = NCM 1801.00.00” (May–June 2026) involving Gary Teh, Graziela Vedana (Seacos Logistic), Ana Barros & Isis Ribeiro (Omega Services), and Matheus Reis (Gateway.fy).

Key Contacts

Role	Name	Company	Email	Phone

Commercial / Management	Helesson Bastos	Omega Services	helesson.bastos@omegaservicos.com.br	—

Pre-Flight Checklist

Phase 0: Regulatory & System Setup

- [x] **SISCOMEX / RADAR registration confirmed** (done Jun 2026)
- Omega’s 3 customs brokers registered in RADAR by Matheus via **Portal Único Siscomex**:
 1. Valéria Requião Barretto — CPF: 420.749.165-15
 2. Lazaro Barbosa Reis — CPF: 237.915.355-87
 3. Mauricio Costa Bezerra — CPF: 374.003.555-20
- [x] **Power of Attorney (PoA) signed and submitted** (done Jun 2026)
- Omega can officially act on the export process
- [x] **NCM code confirmed: 1801.00.00 (cocoa beans, raw)**
- No special treatment required for USA destination
- No MAPA (Ministry of Agriculture) clearance needed — confirmed by Omega
- Also applies: 1803.10.00 (cacao mass/husk), 2106.90.00 (cacao tea)
- [] **Fiscal Nota (NF-e) issued** ⚠ **CRITICAL BLOCKER**
- **Black King currently CANNOT issue NF-e.** THREE concurrent root causes (confirmed Jul 2026 by Matheus + former accountant): (1) **Missing commerce CNAE** — CNPJ has only service CNAEs (82.30-0-01, events/fairs) → no Inscrição Estadual (IE) → no NF-e credentialing at SEFAZ-BA; (2) **e-CNPJ digital certificate EXPIRED early June 2026** — blocks all gov portals; (3) **CNPJ flagged “Inapto” (ineligible)** by Receita Federal due to unpaid invoices over the past year — clearance expected Friday→Monday after settling pending invoices.
- **PRE-FLIGHT CHECK (new, for ALL future Brazil shipments):** Before booking any cargo, verify (a) e-CNPJ certificate is valid/unexpired, (b) CNPJ status is NOT “Inapto” (check at <https://solucoes.receita.fazenda.gov.br/Servicos/ConsCnpjCpf/>)

ConsultaCnpjCpf.asp or e-CAC). An “Inapto” status silently blocks ALL issuance. Fix = settle pending invoices + accountant confirms status update.

- **NFA-e (Nota Fiscal Avulsa) is NOT accepted for DU-E registration.** DU-E/Siscomex requires NF-e model 55, which needs IE. Confirmed via online research of Siscomex documentation — the DU-E pulls data directly from NF-e XML; no NFA-e integration exists.
- **Sebrae NF-e Emitter (FREE, recommended post-IE):** Sebrae offers a free, web-based NF-e emitter at <https://emissornfe.sebrae.com.br> (350k+ users, 4M+ documents). Supports export NF-e (CFOP 7.101/7.102) — exportação is a Natureza de Operação variation of standard NF-e. Also handles NFS-e, CT-e, NFC-e, and stock control. Requires: Conta Sebrae (free account), ICP-Brasil digital certificate (A1/A3), **IE + SEFAZ credentialing (same prerequisites as any NF-e emitter)**. See Appendix A.1.4 for setup steps.
- **Self-service enablement path (no accountant needed):** See **Appendix A** for the complete step-by-step guide. Summary: (1) Add commerce CNAE to CNPJ via e-CAC, (2) Request IE at SEFAZ-BA, (3) Credential for NF-e emission, (4) Issue the export NF-e.
- **Bilingual self-service guide (PDF):** A polished 10-page bilingual (EN/PT) guide was sent to Matheus on 16 Jun 2026 and is saved at: [agentic_ai_context/exports/2026-06-16_export_nfe_enablement_black_king_self_service_guide.pdf](#) Covers everything from SEFAZ password setup through issuing the DANFE, plus the Coopercabruca fallback.
- **Estimated timeline:** 8 days self-service vs. 1–2 months if routed through Matheus’s accountant.
- **Fallback:** Coopercabruca (CNPJ 31.948.811/0001-42, Itabuna BA) already has IE and NF-e capability — see **Appendix B**.
- Once NF-e issued, share XML + DANFE with Omega/Graziela + PIX details for Gary’s payment.

Phase 1: Cargo Preparation at Origin (Ilhéus)

- ☐ **Cargo photos taken and shared**
- Matheus sends photos of the approximate load to the thread
- ☐ **Pallet compliance verified**
- All wooden pallets must meet ISPM#15 standards:
 - Fumigated or heat-treated
 - IPPC stamp clearly marked on all sides (100% legible)
 - Original Phytosanitary Certificate to accompany shipping documents
- If existing pallets lack IPPC stamps, acquire compliant pallets or use Omega’s pallet supply + packing service
- ☐ **Palletization arranged**
- Omega can supply pallets (BRL 195 for 3 pallets) and perform fumigation (BRL 500 for 3 pallets)
- Palletization done in Salvador (after road transport from Ilhéus)
- Alternatively, check if repacking at the airport is possible to reduce charges
- ☐ **Packing at Matheus’s warehouse**
- Coordinate with Matheus to pack the cargo at his warehouse in Ilhéus
- Omega to call Matheus to arrange packing and collection

Phase 2: Inland Transport (Ilhéus → Salvador)

- ☐ **Road transport booked**
- From Ilhéus to Salvador
- Cost: BRL 6,615.00 + 0.15% ad-valorem (with palletization in Salvador)
- Alternative (without palletization in Salvador): BRL 7,290.00 + 0.15% ad-valorem
- ☐ **Collection scheduled**
- Omega’s international team coordinates pickup from Matheus’s warehouse in Ilhéus
- Cargo moves down to Salvador for palletization and airport processing

Phase 3: Airport & Export Processing (Salvador)

- ☐ **Palletization at Salvador** (if not done at origin)
- 3 pallets: BRL 195.00
- Fumigation: BRL 500.00
- Total pallet cost: BRL 695.00
- ☐ **Booking confirmed with airline**
- Omega awaits confirmation of reservation, scheduling, and Booking
- ☐ **Airline revalidates quote**

- Graziela (Seacos) coordinates with the airline for final rates
- ☐ **Export documentation prepared**
- Air Waybill (AWB)
- Commercial Invoice
- Packing List
- Phytosanitary Certificate (for wooden pallets)
- IPPC stamp details on Bill of Lading
- ☐ **Desembaraço de exportação (export customs clearance)**
- Handled by Gerson Argolo (Omega export analyst)

Phase 4: Air Freight (Brazil → USA)

- ☐ **Air freight booked**
- Airport-to-airport (Salvador → San Francisco)
- Rate per kg (tiered by weight):
 - 200 kg: ~\$3.50/kg
 - 300 kg: ~\$3.40/kg
 - 500 kg: ~\$3.30/kg
 - 750 kg: ~\$3.30/kg
 - 1000 kg: ~\$3.20/kg
- ☐ **Brazil airport charges paid**
- ~\$0.30/kg, minimum \$250
- ☐ **US airline terminal fee**
- ~\$212.50

Phase 5: US Import & Customs (San Francisco)

- ☐ **US import handling**
- Import handling fee: ~\$125.00
- ☐ **US customs clearance**
- Customs clearance fee: ~\$150.00
- ☐ **FDA processing** (if required for cacao)
- ~\$100.00
- ☐ **Bond (single-entry)** (if required)
- Max(\$100, \$6 per \$1,000 of cargo value + duty)
- ☐ **MPF (Merchandise Processing Fee)**
- 0.3464% of cargo value (min \$33.58, max \$651.50)
- ☐ **Duty payment** (if applicable)
- $\text{cargo_value} \times (\text{duty_percent} / 100)$
- ☐ **Customs exam** (if randomly selected)
- ~\$250 per exam

Phase 6: Final Delivery

- ☐ **Cargo arrives at San Francisco airport**
- ☐ **Delivery to Kirsten's warehouse arranged**
- Coordinate final-mile delivery from SFO airport to Kirsten's San Francisco warehouse

Cost Summary (as of June 2026)

Item	Amount (BRL)	Amount (USD est.)
Road Transport (Ilhéus → Salvador)	6,615.00 + 0.15% ad-valorem	—
3 Pallets	195.00	—
Fumigation (3 pallets)	500.00	—

Item	Amount (BRL)	Amount (USD est.)
Subtotal (Brazil inland + pallets)	7,310.00 + 0.15%	—
Air Freight (per kg, tiered)	—	\$3.20–3.50/kg
Export Documentation	—	\$95.00
Brazil Airport Charges	—	\$0.30/kg (min \$250)
US Airline Terminal Fee	—	\$212.50
US Import Handling	—	\$125.00
US Customs Clearance	—	\$150.00
FDA Processing (if req.)	—	\$100.00
MPF (0.3464% of value)	—	\$33.58–651.50

Notes & Gotchas

- **Matheus's phone issues:** His number was flagged for a scam attempt — he can receive calls but cannot make outgoing calls. WhatsApp works. Rebecca (at the Ilhéus warehouse, +55 73 99108-2946) can be called for physical warehouse matters.
- **Timing:** Matheus is usually available between 12pm–1pm Brazil time.
- **Accountant delays:** Matheus's accountant historically takes 1–2 months for paperwork. **Matheus can bypass the accountant entirely for all steps in this document.** As an Empresário Individual (sole proprietor), he is the legal representative of Black King and can access all government portals directly with his e-CNPJ certificate. See Appendix A for self-service instructions.
- **NF-e enablement is self-service:** Adding a CNAE (e-CAC), requesting IE (SEFAZ-BA), and credentialing for NF-e (SEFAZ-BA) are all done directly by Matheus with his e-CNPJ certificate. No accountant delegation required. Fastest path: 8 days.
- **NFA-e is a dead end for exports:** Research confirmed that DU-E/Siscomex requires NF-e model 55. The NFA-e (Nota Fiscal Avulsa) is for occasional domestic operations and has no integration with the DU-E system. Black King must obtain IE and NF-e credentialing.
- **Airline & rates:** Airline confirmed rates and space as of June 11, 2026 (Graziela). Consolidated pricing still pending — Graziela said she would send “shortly” on June 5 but hasn't delivered yet.
- **Payment:** Gary oversees payment processing via PIX once the fiscal nota is issued. Omega's PIX details needed at that point.
- **WhatsApp:** Graziela's WhatsApp is +1 603-560-0588 (shared June 11). Preferred for faster communication.
- **Commercial Invoice & Packing List:** Already generated and sent to Graziela on June 11, 2026 (INV-2026-0611-001, PL-2026-0611-001).
- **Coopercabruca as fallback:** If the NF-e enablement timeline is too long, Coopercabruca (Itabuna, BA) already has IE and NF-e. They shipped 100kg cacao via the same SSA→SFO route with Omega in November 2023. See Appendix B for contact details and exportação indireta mechanism.

Appendix A: Export NF-e Enablement & Issuance SOP

Bilingual companion guide (EN/PT): A polished 10-page PDF was sent to Matheus on 16 Jun 2026 and is saved in the repo at: [exports/2026-06-16_export_nfe_enablement_black_king_self_service_guide.pdf](#) It covers all steps below plus: SEFAZ password/DTE setup, IE request procedure, NF-e credentialing, exchange rate (BACEN), CFOP codes, troubleshooting per step, and the Coopercabruca fallback route.

Purpose: This appendix covers the COMPLETE journey — from enabling NF-e capability on Black King's CNPJ (which currently lacks IE and commerce CNAE) to issuing the final export NF-e. All steps are self-service by Matheus using his e-CNPJ certificate. No accountant needed. **Reference:** Commercial Invoice INV-2026-0611-001 (Rev 2, FOB), Packing List PL-2026-0611-001

Situation: Black King is an Empresário Individual (CNPJ 50.042.585/0001-80) with only service CNAEs (82.30-0-01). It has no Inscrição Estadual and cannot issue NF-e. The NFA-e (Nota Fiscal Avulsa) path is not viable for DU-E registration — NF-e model 55 is required. **Estimated time:** 8 days self-service (fastest) vs. 1–2 months via accountant.

Part A.1 — Enable NF-e Capability (CNAE → IE → Credentialing)

Critical note: Black King is an Empresário Individual — Matheus IS the legal representative. His e-CNPJ certificate grants full authority to make CNPJ changes, request IE, and credential for NF-e. The accountant is an advisor, not a gatekeeper.

A.1.1 — Prerequisites (verify you have these)

Item	Status
e-CNPJ digital certificate (ICP-Brasil A1/A3)	✓ Already used for RADAR/Siscomex
e-CNPJ certificate VALID (not expired)	⚠ EXPIRED early June 2026 — RENEW BEFORE SHIPPING
CNPJ status NOT “Inapto”	⚠ WAS “Inapto” (unpaid invoices) — verify cleared at solucoes.receita.fazenda.gov.br
SEFAZ Services password	Obtain at sefaz.ba.gov.br if not yet
DTE (Domicílio Tributário Eletrônico) adhesion	Required for export ops; do at sefaz.ba.gov.br
Computer with internet	Any browser works

A.1.2 — Step 1: Add Commerce CNAE to CNPJ (Day 1)

WHO: Matheus. **WHERE:** e-CAC (Receita Federal). **TIME:** ~10 minutes + 24h processing.

1. Go to <https://cav.receita.fazenda.gov.br>
2. Login: “Entrar com GOV.BR” → “Certificado Digital” → select **e-CNPJ** certificate (NOT e-CPF)
3. In dashboard: **Alteração de Dados Cadastrais** or **Atualização Cadastral**
4. Under “Atividades Econômicas” / “CNAE”: click “**Incluir**” to add a SECONDARY CNAE
5. Enter ONE of these commerce CNAE codes:
6. **46.23-1/04** — Comércio atacadista de cacau (BEST MATCH)
7. 46.32-0/01 — Comércio atacadista de cereais e leguminosas
8. 46.39-7/99 — Comércio atacadista de produtos alimentícios em geral
9. Set as **SECONDARY** activity — do NOT replace the primary CNAE (82.30-0-01)
10. Click “**Enviar**”. Save the protocol number.
11. Processing: 1–24 hours. Check CNPJ card at solucoes.receita.fazenda.gov.br

Why this works without an accountant: As Empresário Individual, Matheus is the sole owner/administrator of Black King. The e-CNPJ certificate grants full authority to modify CNPJ registration data. The accountant uses this exact same portal. Adding a secondary CNAE does NOT affect Simples Nacional status.

A.1.3 — Step 2: Request Inscrição Estadual (IE) at SEFAZ-BA (Day 2)

WHO: Matheus. **WHERE:** sefaz.ba.gov.br. **TIME:** 3–10 business days.

Prerequisite: The new commerce CNAE must be visible on the CNPJ card BEFORE proceeding. SEFAZ-BA checks the CNPJ registry automatically and will reject if only service CNAEs are found.

1. Go to sefaz.ba.gov.br, login with **e-CNPJ certificate**
2. Navigate: **Carta de Serviços** → **Cadastros** → **Inscrição Estadual**
3. Select: “**Solicitação de Inscrição no Cadastro de Contribuintes do ICMS**”
4. System auto-fills from CNPJ. Verify:
5. CNPJ: 50.042.585/0001-80
6. Razão Social: MATHEUS REIS PEREIRA
7. Nome Fantasia: BLACK KING
8. Endereço: Av. Tancredo Neves, 4900, Qd H, Cs 9, Ilhéus, BA, 45655-650
9. Set primary economic activity to the new commerce CNAE for ICMS purposes
10. Upload documents if requested: updated CNPJ card (PDF), proof of address (IPTU or lease), RG and CPF
11. Submit. Save protocol number. Track on same portal.
12. If SEFAZ requests more documents via DTE/email, respond promptly — delays here are the main bottleneck.

A.1.4 — Step 3: NF-e Emission Credentialing (Day 6–7)

WHO: Matheus. **WHERE:** sefaz.ba.gov.br. **TIME:** 24–48 hours.

Prerequisite: IE must be active. Verify at sefaz.ba.gov.br → Consulta de Inscrição Estadual.

1. Log into **sefaz.ba.gov.br** with e-CNPJ
2. Navigate: **Carta de Serviços** → **Notas Fiscais** → **Credenciamento NF-e**
3. Request: **“Autorização para Emissão de NF-e” (modelo 55)**
4. Processing: 24–48 hours. “Emissão de NF-e” appears in SEFAZ menu.

NF-e emitter options (all work without accountant): - **Option A (FREE, RECOMMENDED): Sebrae NF-e Emitter** at <https://emissornfe.sebrae.com.br> — web-based, no installation, 350k+ users. Supports export NF-e (Natureza de Operação “Exportação” with CFOP 7.101/7.102), plus NFS-e, CT-e, NFC-e, and stock control. Login with Conta Sebrae (free account at amei.sebrae.com.br). After first login: complete company profile in Ajustes → Configurações da Empresa, configure Naturezas de Operação (export CFOPs), register products/clients, upload ICP-Brasil certificate (Ajustes → Configuração Fiscal). See full manual at <https://sebrae.com.br/subsites/emissor-nf-e> - **Option B (FREE): SEFAZ-BA web emitter** — login to SEFAZ-BA → Emissão de NF-e. Built-in, no installation. BA-specific. - **Option C (FREE): National NF-e portal** at nfe.fazenda.gov.br — download free emitter for BA. - **Option D (PAID): Commercial software.** Only worth it for high-volume NF-e issuance.

If NF-e menu doesn’t appear after approval: Call SEFAZ-BA support. Sometimes manual profile activation is needed. This is a known first-time issue — they resolve it on the same call.

Part A.2 — Issue the Export NF-e (Day 8)

Once NF-e credentialing is approved, use any of the emitter options above. All data from Commercial Invoice INV-2026-0611-001.

A.2.1 — NF-e Header

Field	Value
Operation type	Exportação (código 6.501)
Nature of operation	Exportação definitiva de mercadorias
Model	55 (NF-e padrão)
CFOP	7.101 (venda de produção própria) or 7.102 (revenda de terceiros)

A.2.2 — Seller (Emitente) — Black King

Field	Value
CNPJ	50.042.585/0001-80
IE	[NEW IE NUMBER — will be assigned in Part A.1 Step 2]
Razão Social	MATHEUS REIS PEREIRA
Nome Fantasia	BLACK KING
Endereço	Av. Tancredo Neves, 4900, Qd H, Cs 9, Ilhéus, BA, 45655-650

A.2.3 — Buyer (Destinatário) — TrueTech Inc

Select **“Exterior”** as destination type. No Brazilian CNPJ/CPF needed.

Field	Value
Nome	TrueTech Inc
País	Estados Unidos (código 2496)
ID Exterior	EIN 88-3411514
Endereço	1423 Hayes St
Cidade/Estado/CEP	San Francisco, CA, 94117

First-time: If TrueTech Inc is not in the system, use “Adicionar Destinatário” / “Novo Cliente” → select “Exterior” type.

A.2.4 — Line Items (from Invoice INV-2026-0611-001)

#	NCM	Description	Qty	Unit	Unit Value (USD)	Total (USD)
1	1801.00.00	Cacao Nibs Kraft Pouch 8oz — Ilhéus 2024	137	UN	\$6.64	\$909.68
2	1803.10.00	Cacao Husk (KG) — Ilhéus, Brazil	20	KG	\$17.79	\$355.71
3	1803.10.00	Cacao Mass Bar 500g — Ilhéus 2024	37	UN	\$15.70	\$580.90
4	1801.00.00	Cacao Nibs (KG) — Ilhéus 2024	80	KG	\$24.62	\$1,969.48
5	1801.00.00	Cacao Almonds (KG) — AGL8	10	KG	\$0.01*	\$0.10
6	2106.90.00	Cacao Tea (KG) — AGL8	12	KG	\$0.01*	\$0.12
7	1803.10.00	Ceremonial Cacao Pouch 200g — AGL8	169	UN	\$10.37	\$1,752.53
8	1801.00.00	Cacao Almonds (KG) — AGL13	15	KG	\$7.87	\$118.05
9	1801.00.00	Cacao Nibs (KG) — AGL13	100	KG	\$10.18	\$1,018.23
10	2106.90.00	Cacao Tea (KG) — AGL13	21	KG	\$10.18	\$213.83
11	1801.00.00	Cacao Almonds (KG) — AGL14	10	KG	\$11.41	\$114.12

*Items 5 and 6 (AGL8 almonds and tea) have \$0 cost basis. If the system requires a nominal value, use \$0.01. If \$0 is accepted, use \$0.00.

A.2.5 — Financial & Transport Info

Field	Value
Incoterms	FOB (freight paid by buyer)
Total Invoice Value	\$7,032.53 (USD)
Currency	Dólar Americano (USD)
Freight Value	\$0.00 (buyer pays separately)
Transport Mode	Aéreo
Airport of Departure	SSA (Salvador)
Airport of Destination	SFO (San Francisco)
Total Gross Weight	~342.3 kg
Total Net Weight	~307.3 kg

A.2.6 — Tax Configuration

Tax	Setting
ICMS	Isento (export immunity under Brazilian law)
IPI	Isento
PIS/COFINS	Suspensão (export suspension regime)

Exchange rate: If the NF-e system asks for the USD/BRL rate, use the official BACEN rate for the issue date: <https://www.bcb.gov.br/conversao>

A.2.7 — Issue and Deliver

1. Click “Emitir” / “Transmitir” in the NF-e emitter
2. System validates with SEFAZ. Wait for “**Autorização de Uso**” response (usually seconds)
3. If approved: **XML file** (official electronic NF-e) + protocol number. If rejected: read error, fix, retry.
4. Print/save the **DANFE** (Documento Auxiliar da NF-e)
5. **Email XML + DANFE to:**
6. Graziela Vedana: **Graziela@5cl.rs**
7. Isis Ribeiro (Omega Export Ops): **isis.ribeiro@omegaservicos.com.br**
8. Ana Barros (Omega Pricing): **ana.barros@omegaservicos.com.br**
9. Iolanda Santos (Omega Siscomex): **iolanda.santos@omegaservicos.com.br**
10. Also send Omega's PIX details to Gary for payment processing

A.2.8 — Troubleshooting: Common First-Time Issues

Issue	Solution
“Exportação” not in operation type dropdown	Call SEFAZ-BA support — they enable export profile on the phone. This is common for first-time exporters. Do NOT wait for accountant.
“IE não encontrada” error	Wait a few hours for IE to propagate across SEFAZ systems. New IEs may take up to 24h to become available in the NF-e module.
Foreign buyer not in system	Add TrueTech Inc manually with “ Exterior ” flag — no CNPJ needed
System asks for exchange rate	Use official USD/BRL rate from BACEN for the issue date
\$0 value items rejected	Enter a nominal value like \$0.01
NF-e menu doesn't appear after credentialing approved	Call SEFAZ-BA support for manual profile activation

Appendix B: Coopercabruca Fallback Route

If the NF-e enablement timeline (8+ days) is too long, use this alternative. Coopercabruca already has IE, NF-e capability, and FDA FSVP (FFR 17660066140, VALID). They shipped 100kg cacao via the same SSA→SFO air freight route with Omega in November 2023.

Field	Value
Entity	COOPERATIVA DOS CACAUCULTORES DO SUL DA BAHIA - COOPERCABRUCÁ
CNPJ	31.948.811/0001-42
CNAE	10.93-7-01 (Fabricação de produtos derivados do cacau)
Location	Travessa Belo Horizonte, 166, Pontalzinho, Itabuna, BA, 45603-070
Contact	coopercabruca@gmail.com / +55 73 9138-8884
FDA FSVP	VALID — FDA FFR 17660066140
Previous export	100kg cacao SSA→SFO, November 2023 (Omega handled this shipment)

Mechanism: Exportação Indireta (Indirect Export)

1. Black King issues a simple **domestic NF-e** to Coopercabruca with CFOP 5501/6501 (“remessa com fim específico de exportação”). No IE needed for domestic operations.
2. Coopercabruca issues the **export NF-e** to TrueTech Inc with CFOP 7101/7102, referencing Black King's domestic NF-e.
3. Coopercabruca handles DU-E registration and export despacho with Omega.
4. Goods ship from Itabuna (same region as Ilhéus, minimal additional inland transport).

Key consideration: This adds one intermediary and Coopercabruca would need their margin on the transaction. The export NF-e would carry Coopercabruca's CNPJ, not Black King's. Commercial invoice would be from Coopercabruca to TrueTech Inc.

Appendix C: Triangular Trade Documentation (Two-Layer Invoice Flow)

Context: Under the Próspera ZEDE structure (see `BRAZIL_EXPORT_ENTITY_BRIEF.md` and `PROSPERA_ENTITY_OPERATING_AGREEMENT.md`), the trade flow is: Brazilian Export Partner → TrueSight DAO LLC (Próspera) → TrueTech Inc (US) → retailers. This creates two separate documentation layers — one for Brazilian customs, one for tax/transfer pricing.

C.1 — Two Documentation Layers

Layer 1: Brazilian customs (NF-e + DU-E + customs Commercial Invoice)

These documents go to Receita Federal/Siscomex and the freight forwarder. They all show the **physical destination**:

Document	Exporter	Buyer/Destination
NF-e (model 55, CFOP 7.101/7.102)	Black King (or Coopercabruca)	TrueTech Inc (US, EIN 88-3411514)
DU-E (Declaração Única de Exportação)	Black King	TrueTech Inc
Commercial Invoice (customs-facing)	Black King	TrueTech Inc

Brazilian customs only cares about where the goods physically go (US). The NF-e and customs invoice must match — both show TrueTech Inc as the buyer. The Próspera intermediary is invisible to Brazilian customs.

Layer 2: Tax/transfer pricing (commercial invoices for corporate tax)

These are separate invoices for the respective tax jurisdictions, documenting where profit is booked:

Black King (BR) → TrueSight DAO LLC (Próspera, HN) Invoice: at cost + small margin (arm's-length) Purpose: Black King's Brazilian tax filing; Próspera's purchase basis
TrueSight DAO LLC (Próspera) → TrueTech Inc (US) Invoice: at wholesale price Purpose: TrueTech's COGS (reduces US taxable income); Próspera's revenue
TrueTech Inc → Retailers Invoice: at wholesale/retail price Purpose: US sales reporting

Profit is booked at the Próspera layer at **1% flat tax** (Próspera ZEDE regime). Tax authorities see arm's-length transactions between independent entities.

C.2 — FDA/FSVP: Próspera Does NOT Register

Role	Who	Requirement
Foreign suppliers (food facilities)	Black King, Coopercabruca, CEPOTX, etc.	FDA Food Facility Registration + DUNS (VALID, exp 2026-12-31)
US FSVP + CBP importer of record	TrueTech Inc	FDA FFR 12202640780, DUNS 119035208, FSVP small-importer program
Intermediary (coordination/bookkeeping)	TrueSight DAO LLC (Próspera)	None. Does not manufacture, process, hold food, or import into US. Not a food facility.

The Operating Agreement §11.4 explicitly preserves this: *“TrueTech Inc remains the U.S. FDA-FSVP and Customs importer of record.”* FDA only cares about the actual food facility (origin) and the US importer — the intermediary that never touches the product is out of scope.

C.3 — Key Principle

Brazilian customs sees: Black King → TrueTech Inc. Tax authorities see: Black King → Próspera → TrueTech Inc. FDA sees: Black King (facility) → TrueTech Inc (importer).

Do NOT put Próspera on the NF-e, DU-E, or customs Commercial Invoice. Those documents reflect the physical export, and the goods physically ship from Brazil to the US.
