Stop 1 — CIC Cacao Innovation Center

ILHÉUS · TUESDAY 29 SEPTEMBER · CONFIRMED

- Meet **Cristiano Villela Dias**, scientific director of the CIC (Centro de Inovação do Cacao).
- Physical-chemical lab analysis of almonds: quality, fermentation index, traceability.
- Part of **PCTSuI** — the science park driving the new professional cacao economy of southern Bahia.
- The lab behind Agroverse's quality certifications and origin claims.

On the UESC campus, Rodovia Jorge Amado km 16, Ilhéus — about 5 km from the airport.

Stop 2 — Black King Warehouse

ILHÉUS · WEDNESDAY 30 SEPTEMBER · PROPOSED

- Managed by **Matheus Reis** — our export & warehouse partner on the ground.
- Holds the Agroverse ceremonial cacao inventory: **QR-coded bags**, batch-tracked on the ledger.
- See how cacao moves: farm → warehouse → bagging → QR registration → shipment.
- Meet the team behind every order — Matheus, Emelin, Clara & Fernando.

Stop 3 — Santos Chocolate Factory

ITABUNA · WEDNESDAY 30 SEPTEMBER · PROPOSED

- Bean-to-bar craft processing with **José Carlos (Santos)**, a 40+ year veteran of the Bahian cacao industry.
- Turns Agroverse almonds into nibs, liquor and finished bars — at origin.
- Watch roasting, winnowing, cracking and melanging — the full craft process.
- This is the facility at the centre of our current **40 kg Oscar cacao** processing conversation.

Stop 4 — Coopercabruca

ITABUNA · WEDNESDAY 30 SEPTEMBER · QUICK VISIT

- A producer cooperative (Cooperativa dos Cacaucultores do Sul da Bahia) whose member farms supply cabruca cacao.
- Meet **Orlantides Santos Pereira**, the cooperative's president.
- Holds the **IE and NF-e** credentials behind our export paperwork and MAPA/GACC registration.
- Cabruca means cacao grown in the shade of the native Atlantic Forest — the growing model behind our beans.

Itabuna, about 25 km from Ilhéus — the same short drive as the warehouse and the factory.

Stop 5 — Oscar's Farm · Cabruca Agroforestry

SOUTHERN BAHIA · SATURDAY 3 OCTOBER · CONFIRMED

- Three generations of farming; the land has grown cacao for over a century.
- Old **Criolla** trees (~80 years) shaded by native Atlantic Forest — true cabruca.
- Harvest, pod-breaking, fermentation troughs and sun-drying on the *terreiro*.
- Meet **Oscar** (Oscar Martins da Silva Miranda) — the grower behind our current export.

TRACEABILITY, END TO END

- Every Agroverse shipment (AGL series) is photographed and logged end-to-end.
- **QR-coded bags** link each unit to the farmer, the fermentation batch and the buyer.
- Blockchain + Google Sheets ledger = full traceability from tree to table.
- The 40 kg of Oscar's cacao travelling this season is one of many export runs to our partners.

Why This Matters

Regenerative cabruca cacao restores the Atlantic Forest while our mission drives 10,000 hectares of Amazon rainforest regeneration. Every bag you see on this tour is a step toward that goal.

See you in Bahia, Liz — 29 September – 8 October 2026.
