

GACC Registration Requirements — Black King to China (Dongguan)

Prepared for Jerri / Ling — 16 June 2026

Overview

Every food item imported into China requires the manufacturer to have a GACC registration number from China Customs. One product, one registration. Without it, customs clearance cannot proceed.

Effective regulation: GACC Decree No. 280 (effective June 1, 2026), replacing Decree No. 248. Existing valid registrations carry over.

Key change for cocoa: Under Decree No. 280, unroasted cocoa beans have been removed from the "Official Recommendation" list. Cocoa/cacao products now follow Pathway 2: Self-Application Registration — faster and simpler. No recommendation letter from MAPA needed.

Step 2: Register on CIFER (cifer.singlewindow.cn)

1. Create account as overseas manufacturer
2. Submit: CNPJ certificate (CN translation), food safety docs, product list, compliance declaration
3. GACC issues 18-digit registration number
4. Timeline: 3–6 months for first-time registration

Step 3: Prepare Chinese Labels

Once GACC number obtained, prepare bilingual labels for each product. GACC number must be printed on label.

Step 4: Ship with Complete Documentation

Present all docs from Section C at customs clearance in Dongguan.

E. Timeline & Urgency

Milestone	Estimated Timeline
GACC registration submitted	ASAP
GACC registration approved	3–6 months
Bilingual labels prepared	2–4 weeks (parallel)
Health Certificate from MAPA	2–4 weeks
Lab testing / composition report	2–4 weeks
First shipment ready	~6–8 months from start

Recommendation: Start GACC registration immediately — it's the critical path.
