Overview

The **Currencies** sheet in the TrueSight DAO Main Ledger tracks all products. It has two customs code columns for international and US import declarations.

Column S: HS Code (International)

Type: String (6-digit)

Description: International Harmonized System code — the global 6-digit standard used by customs authorities worldwide.

Column T: HTS Code (US Customs)

Type: String (8–10 digit)

Description: US Harmonized Tariff Schedule code — includes the statistical suffix digits required by US Customs and Border Protection (CBP) for import entries.

Complete Product Mapping

Product Category	HS Code (Col S)	HTS Code (Col T)
Cacao Nibs (8 oz Kraft Pouch)	1801	1801.00.0000
Cacao Almonds / Cacao Beans (KG)	1801	1801.00.0000

How to Use

1. Open the live Currencies sheet: https://docs.google.com/spreadsheets/d/1GE7PUq-UT6x2rBN-Q2ksogbWpgyuh2SaxJyG_uEK6PU/edit#gid=0
2. For each product, look up the correct HTS code on the USITC Tariff Database (<https://hts.usitc.gov>)
3. Enter the 10-digit HTS code in **Column T** (HTS Code)
4. The HS Code in **Column S** remains the international 6-digit prefix
5. These codes are used by the Shipping Planner and Freight Profit Analysis for duty calculation on US imports
