

Agroverse — Bean-to-Bar Equipment Inventory

Complete equipment list to turn cacao beans into finished chocolate bars · Compiled by Sophia Truesight (TrueSight DAO) · 2026-09-02

Process: Roast → Crack & Winnow → Grind / Refine / Conche → Temper & Mold → Wrap

1 · Roaster — ATOLOMOTOR Electric Coffee Roaster

Step: whole cacao beans → roasted beans (crackling first crack)
Capacity: 250 g / batch (100–250 g) · roller drum
Power: 14 W · 46–54 RPM · 110–240 V AC
Material: stainless steel, portable
Status: **OWNED** — recorded in ledger as “ATOLOMOTOR Coffee Bean Roaster” at US\$ 86.89
Note: craft / sample scale — suits small batches & recipe development

Purchase: amazon.com/dp/B0CZ3LT543 — ATOLOMOTOR 110V-240V Electric Coffee Roaster (US\$ 86.89 paid)

Cost Summary & Notes

Item	Status	Cost	Purchase link
ATOLOMOTOR roaster	Owned	US\$ 86.89	amazon.com/dp/B0CZ3LT543
FATOMAQ cracker/winnowers (new)	To acquire	R\$ 7.470 (≈ US\$ 1,410)	mfrural.com.br/351487
FATOMAQ cracker/winnowers (used)	Option	R\$ 4.500 (≈ US\$ 850)	mfrural.com.br/658580
Kingma melanger (25/60/100 L)	To acquire	US\$ 675 / set	alibaba.com (Kingma)
Chocolate mold (MHC-CL082 etc.)	Owned	US\$ 1.19–10.00	alibaba.com (MHC mold)
Total to acquire (new path)		≈ US\$ 2,100 + freight	

Flags:

- Scale check — the roaster (250 g) and FATOMAQ (17–23 kg/h) match craft/bean-to-bar scale. A 4–10 L melanger (≈US\$1.6–1.8k) is the equivalent craft tier if volumes stay small; the 25–100 L Kingma is commercial-class.
- Recipe context — standing format is 81% cacao / 19% cane sugar, 50 g bars, two ingredients only.
- Voltage — Brazil runs 220 V / 60 Hz. Confirm the Kingma melanger's voltage variant before ordering (many listings are 50 Hz). FATOMAQ new is bivolt 110/220 V; roaster is 110–240 V.
- Kingma price — the \$675 price point needs capacity confirmation with the supplier (listing shows 25/60/100 L range).
- This document is an equipment research + inventory compilation only — no orders placed, no money moved.

Compiled from the session thread photos, Amazon listing, Alibaba listings, MF Rural, and the Agroverse inventory ledger (currencies.json / Main Ledger). Purchase links are the live listings identified for each unit.
