

FDA FSVP Compliance & First Shipment Roadmap

Prepared for: Jessey / Conservana Spices — Indonesia Cacao

Reference: Based on TrueTech Inc's established FSVP process for Brazil-origin cacao suppliers

Date: July 2025

Overview

This document outlines everything needed to bring Indonesia-origin ceremonial cacao into the USA through TrueTech Inc (the DAO's US importer of record). It covers:

1. **FDA FSVP requirements** — what documents we need from you
2. **The end-to-end shipment process** — step by step
3. **Freight & logistics** — moving cacao from Indonesia to the USA
4. **Checkpoints & timeline** — what needs to happen and when

Section A: What Is FDA FSVP?

The **FDA Food Safety Verification Program (FSVP)** requires the US importer (TrueTech Inc) to verify that foreign suppliers produce food in a manner that meets US food safety standards. Every new supplier must be evaluated and registered before their first shipment can enter the US.

TrueTech Inc's FSVP identifiers:

- FDA FFR: 12202640780
- EIN: 88-3411514
- CBP Importer #: 88-341151400

Section B: Documents Required from the Indonesia Exporting Entity

B1 — Entity Registration & Identification

#	Document	Purpose	Notes
1	Legal entity registration (e.g. Akta Pendirian / NPWP / SIUP)	Prove the exporting entity exists legally	Must match name on all other docs
2	FDA Food Facility Registration (FFR)	Every facility that manufactures/processes/packs/holds food for US consumption must register with FDA	We can guide you through the process

#	Document	Purpose	Notes
3	DUNS number	Universal identifier for the entity	Required for FDA registration
4	Business address & contact	Physical address of the exporting facility	P.O. Box not accepted

B2 — Food Safety & HACCP Documentation

#	Document	Purpose
5	HACCP plan (Hazard Analysis Critical Control Points)	Documented food safety plan covering your fermentation, drying, and processing steps
6	HACCP flow diagram	Step-by-step diagram of your production process from raw cacao to finished product
7	Hazard analysis	Identification of biological, chemical, and physical hazards at each step
8	Critical Control Point (CCP) records	Monitoring records for key control points (e.g. fermentation temperature, moisture content)
9	Corrective action procedures	What happens when a CCP is exceeded
10	Verification procedures	How you verify your HACCP plan is working

B3 — Facility & Processing Information

#	Document	Purpose
11	Fermentation facility description	Location, capacity, method (heap/box/other), duration, turning frequency
12	Drying facility description	Sun drying / mechanical drying, moisture target, hygiene controls
13	Manufacturing/processing facility description	Where nibs, mass, or finished product are produced
14	Packing facility description	Where final product is packaged for export
15	Sanitation / hygiene procedures	Cleaning schedules, pest control, employee hygiene
16	Water quality testing results	If water is used in processing
17	Allergen control plan	If applicable

B4 — Supplier Evaluation & Written Assurance

#	Document	Purpose	
18	Written assurance letter	Signed statement that the supplier's food meets US FDA safety requirements	We will provide a template
19	Supplier evaluation declaration	Our evaluation of your food safety practices	We will prepare this after reviewing your docs
20	Site visit / inspection report	Physical inspection of your facilities	Can be done in person or via video call with photo evidence

B5 — Product-Specific Information

#	Document	Purpose
21	Product specification sheet	Cacao variety, origin, processing method, typical analysis (fat %, moisture %, etc.)
22	Certificate of analysis (COA)	Lab test results for each batch (microbiological, heavy metals, pesticides)
23	Organic certification (if applicable)	USDA NOP-equivalent organic certificate
24	Other certifications	Fair Trade, Rainforest Alliance, etc.
25	Ingredient list	If product contains anything other than 100% cacao

Section C: Freight & Logistics — Indonesia to USA

This section covers the logistics chain for moving cacao from Indonesia to the USA. Since this is a new origin for our network, the freight partner details will be filled in collaboratively with Jessey.

C1 — Recommended Freight Forwarders (Indonesia → USA)

These are established international freight forwarders with Indonesia operations that handle air freight to the USA. Jessey may have existing relationships or preferences:

Company	Based In	Services	Notes
Intitrans	Jakarta	Air & sea freight, export documentation	Established 2003

Company	Based In	Services	Notes
Keenam International	Jakarta	Air freight, customs clearance, export/import	Since 1993
Mitsui Soko Indonesia	Jakarta	Air & sea freight, NVOCC, global network	Japanese-owned, strong USA lane
AIT Worldwide Logistics	Jakarta	Air freight, supply chain solutions	Global network, USA expertise
Dimerco Indonesia	Jakarta	Air & ocean, bonded warehouse, customs brokerage	Strong Asia-Pacific network

To be confirmed: Jessey to advise which freight forwarder they prefer or already work with.

C2 — Freight Route Options

Route	Mode	Estimated Transit	Notes
Jakarta (CGK) → San Francisco (SFO)	Air freight	2–5 days	Direct or via hub (NRT/ICN)
Jakarta (CGK) → Los Angeles (LAX)	Air freight	2–5 days	More frequency, then inland truck to SF
Surabaya (SUB) → San Francisco (SFO)	Air freight	3–6 days	Alternative if origin is East Java
Sea freight (any port → US West Coast)	Ocean	15–25 days	Lower cost, longer transit, larger minimums

Recommended for first shipment: Air freight (Jakarta → SFO/LAX) for speed and smaller volume.

C3 — Estimated Freight Cost Factors (Indonesia → USA Air Freight)

Cost Item	Estimated Range	Notes
Air freight rate (per kg)	\$___ . ___ / kg	Depends on weight tier and season
Indonesia export documentation	\$___ . ___	Per shipment
Indonesia airport charges	\$___ . ___	Per kg or flat
US customs clearance	\$___ . ___	Via customs broker
US airport handling	\$___ . ___	Terminal fee
FDA Prior Notice filing	\$___ . ___	Per shipment
Cargo insurance	\$___ . ___	Optional, recommended

Note: Exact rates to be quoted by the selected freight forwarder based on shipment weight and dimensions.

C4 — What Jessey Needs to Provide for Freight

Item	Details Needed
Preferred freight forwarder	Name and contact
Origin airport	Jakarta (CGK) / Surabaya (SUB) / other
Estimated shipment weight	___ kg
Estimated shipment volume	___ CBM
Packaging type	Boxes / bags / pallets
Preferred shipping frequency	Monthly / quarterly / ad-hoc

Section D: End-to-End First Shipment Roadmap

Phase 1: FSVP Setup (Estimated: 4–8 weeks)

Step	Action	Owner	Checkpoint
1.1	Jessey submits entity registration docs (B1)	Indonesia entity	■ Docs received
1.2	Jessey submits HACCP plan & facility docs (B2–B3)	Indonesia entity	■ Docs received
1.3	TrueTech registers the Indonesia facility with FDA (FFR)	TrueTech Inc	■ FFR number issued
1.4	Indonesia entity obtains DUNS number	Indonesia entity	■ DUNS received
1.5	TrueTech performs supplier evaluation	TrueTech Inc	■ Evaluation complete
1.6	Written assurance letter signed by both parties	Both	■ Letter on file
1.7	Site visit / virtual inspection conducted	TrueTech Inc	■ Inspection report filed
1.8	FSVP record established in fda_fsvp repository	TrueTech Inc	■ Record complete

Phase 2: Commercial Setup (Estimated: 2–4 weeks)

Step	Action	Owner	Checkpoint
2.1	Unit economics template completed	Indonesia entity	■ Economics submitted

Step	Action	Owner	Checkpoint
2.2	Consignment agreement signed	Both	■ Agreement signed
2.3	Dedicated transparent ledger created on truesight.me	TrueTech Inc	■ Ledger live
2.4	Product QR codes generated	TrueTech Inc	■ QR codes assigned
2.5	Packaging specifications confirmed	Both	■ Specs approved
2.6	Freight forwarder selected & quoted	Both	■ Forwarder confirmed

Phase 3: Cargo Preparation — Indonesia (Estimated: 2–3 weeks)

Step	Action	Owner	Checkpoint
3.1	Product produced & packaged	Indonesia entity	■ Product ready
3.2	Lab testing & COA issued	Indonesia entity	■ COA received
3.3	Export documentation prepared (commercial invoice, packing list)	Indonesia entity	■ Docs ready
3.4	Export customs clearance (Indonesia side)	Indonesia entity / Freight forwarder	■ Cleared for export
3.5	Phytosanitary certificate (if required)	Indonesia entity	■ Certificate issued
3.6	Cargo delivered to origin airport	Indonesia entity / Freight forwarder	■ At airport

Phase 4: Freight — Indonesia to USA (Estimated: 1–2 weeks)

Step	Action	Owner	Checkpoint
4.1	Air freight booked (origin → SFO/LAX)	Freight forwarder	■ Booking confirmed
4.2	FDA Prior Notice submitted (at least 24h before arrival)	TrueTech Inc / Customs broker	■ Prior Notice filed
4.3	Cargo loaded & departs	Airline	■ Departed
4.4	Cargo arrives at US airport	Airline	■ Arrived

Phase 5: US Customs & Delivery (Estimated: 3–7 days)

Step	Action	Owner	Checkpoint
5.1	Customs clearance (CBP entry filed)	Customs broker (Magic Custom Brokers)	■ Entry filed
5.2	FDA review (if selected)	FDA	■ Released
5.3	Duty & MPF paid	TrueTech Inc	■ Paid
5.4	Cargo released from airport	Customs broker	■ Released
5.5	Final-mile delivery to warehouse	TrueTech Inc	■ Delivered

Section E: Key Contacts

TrueTech Inc (US Importer of Record)

Role	Name	Contact
President / FSVP Responsible Party	Gary Teh	garyjob@truesight.me
Customs Broker	Michelle Francis	Magic Custom Brokers
Freight Forwarder (Brazil lane)	Graziela Vedana	Seacoast Logistics

Indonesia Side (To Be Confirmed)

Role	Name	Contact
Export Entity Contact	Jessey	TBC
Freight Forwarder (Indonesia → USA)	TBC	TBC

Section F: Estimated Timeline Summary

Phase	Duration	Cumulative
FSVP Setup	4–8 weeks	4–8 weeks
Commercial Setup	2–4 weeks	6–12 weeks
Cargo Preparation	2–3 weeks	8–15 weeks
Freight	1–2 weeks	9–17 weeks
US Customs & Delivery	1 week	10–18 weeks

Total estimated time from start to first shipment landing in USA: 10–18 weeks

Next Steps for Jessey

1. **Start gathering entity registration documents** (Section B1)
2. **Begin drafting your HACCP plan** (Section B2) — we can share a reference template
3. **Complete the unit economics template** (separate document)
4. **Advise on preferred freight forwarder** (Section C1)
5. **Schedule a call** to review everything together

TrueSight DAO — Restoring 10,000 hectares of Amazon rainforest.
