Where You Will Go

Centro de Inovação do Cacau (CIC) — Ilhéus

The cacao science and quality center for southern Bahia, on the UESC university campus (Rodovia Jorge Amado, km 16, Ilhéus). This is where Bahia cacao is analysed and graded — fermentation quality, physical-chemical testing and traceability. The lab reports issued here underpin the quality story behind our fine cacao.

Oscar's Farm — southern Bahia

A working cabruca cacao farm — cacao grown in the shade of native Atlantic Forest trees. Meet Oscar (Oscar Martins da Silva Miranda) and follow the bean from harvest through fermentation and sun-drying. Oscar is one of the growers behind our current export.

Itacaré (base)

Your home base for the visit — a coastal town on the cacao coast, surrounded by rivers, rainforest and cacao farms, with a lively calendar of forró, capoeira and yoga. A natural place to rest between farm days.

Practical Notes

- Timezone: Bahia, Brazil (UTC−3). All times above are local.
- Ilhéus (IOS) to Itacaré: approx. 70 km, 1h 20m to 2h by car (BA-001 coastal road).
- Ground transport and driver: to be arranged by your host.
- Dress: light clothing, hat and closed shoes for farm days; mornings can be wet.
- Media: photos and video are welcome at all sites.
