

GACC Registration Requirements — Coopercabruca to China (Dongguan)

Prepared for Jerri / Ling — 17 June 2026

Overview

Every food item imported into China requires the manufacturer to have a GACC registration number from China Customs. One product, one registration. Without it, customs clearance cannot proceed.

Effective regulation: GACC Decree No. 280 (effective June 1, 2026), replacing Decree No. 248.

Key change: Under Decree No. 280, unroasted cocoa beans have been removed from the "Official Recommendation" list. Cocoa/cacao products now follow **Pathway 2: Self-Application Registration** — no recommendation letter from MAPA needed.

D. GACC Registration Process

Step 1: Determine Pathway

Product	NCM	Pathway
Unroasted cocoa beans	1801.00.00	Self-application (Pathway 2)
Cacao nibs, mass, molasses	1803.10.00	Likely Self-application

Step 2: Register on CIFER

1. Go to cifer.singlewindow.cn

2. Create account as overseas manufacturer
3. Submit: CNPJ (translated to Chinese), food safety documentation, product list, compliance declaration
4. GACC issues 18-digit registration number
5. **Timeline:** 3–6 months

Step 3: Prepare Chinese Labels

Once GACC number obtained, prepare bilingual labels. GACC number must be printed on each label.

Step 4: Ship with Complete Documentation

Present all 10 documents at customs clearance in Dongguan.

E. Timeline

Milestone	Timeline
GACC application submitted	ASAP
GACC approved	3–6 months
Bilingual labels	2–4 weeks (parallel)
Health Certificate (MAPA)	2–4 weeks
Lab testing	2–4 weeks
First shipment ready	~6–8 months

Recommendation: Start GACC registration immediately — it's the critical path.
